18 September 1975

MEMORANDUM FOR: D/DCI/NIO  
25X6A  
SUBJECT : DIA Comments on [REDACTED] KIQs  
(Numbers 51-53)

1. The DIA general comment contains an inaccurate assertion to the effect that the [REDACTED] KIQs have been changed from being fairly specific to very broad. The fact is they are just as specific as before, perhaps even more so, but simply reorganized in a more cogent and manageable fashion.

25X6A

2. Having said this, I find the DIA specific suggestions for adding military questions to be generally OK. I would hope we could simply note at USIB that these specific suggestions are agreeable and will be accommodated in the next edition -- though not necessarily in precisely the same language.

USIB - OKd

25X1A9a

## DIA DECLASSIFICATION/RELEASE INSTRUCTIONS ON FILE

the superpower balance and the affairs of the region?

Include how these policies are affected by public opinion, the political balance within and outside the ruling party, US policy and other international developments.

50. What developments -- domestic or international -- are likely to seriously undermine the political or economic stability of either North or South Korea, alter the essential military balance on the peninsula, and increase the possibility 25X6A of hostilities?
